An Update from the Town Supervisor on the Assessor's Office

We are working hard on our Town-wide revaluation. The goal of which is to make sure that all properties are assessed at full market value, thus ensuring parity for every town taxpayer.

In addition, our Assessors Department is assuring that we are in compliance with New York State-mandated requirements for its office. The New York Office of the State Comptroller requires that we review and update exemption information for all Rhinebeck properties on a regular basis. We are doing this in a systematic way by exemption classification. We began with Agricultural Exemptions last year, and are now working on Veteran's, Not-For-Profit, and Trust exemptions.

If you are currently entitled to any of these exemptions, you may receive a letter from us seeking to update and verify your property information. If you receive such a letter and have questions, just contact the Assessor's Office at 876-4805, and they will ensure that your records are complete and that you continue to receive all the exemptions to which you are entitled.

If you have any further questions or concerns, please do not hesitate to give me a call at Town Hall – 876-3409.

With Warm Regards,

Elizabeth Spinzia
Rhinebeck Town Supervisor
